Key Information Memorandum

SCHEME SPECIFIC RISK FACTORS

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:

MAGNUM BALANCED FUND

Magnum Balanced Fund will be investing in equity & equity related instruments as also debt instruments (including securitized debt), Government Securities and money market instruments (such as call money market, term/notice money market, repos, reverse repos and any alternative to the call money market as may be directed by the RBI).

MAGNUM INDEX FUND

- A. An investor in an index fund is taking a view on the movement of the stock market in general, and particularly of the stocks that constitute the index. Performance of the S&P CNX Nifty Index will have a direct bearing on the performance of the scheme. The scheme does not seek to protect the value of investment from a fall in the S&P CNX Nifty Index or its constituent stocks. Hence the investor is automatically assuming the risk that if the index falls, his investment is likely to depreciate to that extent. The view taken by the investors on the movements of the stock market and the Nifty is entirely their own and the AMC is not responsible for any loss arising out of the investors' decision to invest or repurchase based on their view of the market.
- B. The portfolio of the fund may underperform to the extent of the impact cost of any transaction by the fund in individual stocks. Other transaction costs and operating costs may also cause the fund to underperform.
- C. Any delay in the receipt of sale proceeds due to the settlement cycles of the stock exchanges, or delay in receipt of dividends from corporates can result in delay in reinvestment of these funds, causing some amount of underperformance. Any delay in receipt of information by the fund manager regarding the change in the composition of the index or corporate actions (dividends, fresh issues of capital, mergers, buyback, etc) related to individual securities in the index may also result in underperformance.
- D. The performance of the scheme may also be impacted by the Tracking Error of the scheme vis-à-vis the S&P CNX Nifty Index. The Tracking Error may arise due to the expenses that the scheme will incur on an ongoing basis, transaction costs involved in buying and selling of index shares, impact cost that may arise due to selling of stocks of the scheme at a loss to meet redemption requirements or on account of holding cash. The Tracking Error that may arise in this scheme is estimated to be in the range of 0.5% to 1.00% on an annualised basis.

SBI ARBITRAGE OPPORTUNITIES FUND

Market neutral trading strategy. Arbitrage opportunities arise due to market inefficiencies. Fund seeks to exploit such inefficiencies that will manifest as mis -pricing in cash (stock) and derivative markets. Fund Manager will lock into such arbitrage opportunities seeking to generate tax efficient risk free returns. Fund will not take naked exposures to stocks i.e. will not invest in stocks with a view to generate market related returns. Exposure to stocks will be offset by simultaneous equivalent exposure in derivatives.

MAGNUM NRI INVESTMENT FUND - FLEXI ASSET PLAN

This Plan would follow an Asset Allocation Model wherein depending on market conditions the Fund Manager can take a view on the percentage of investments this can be allocated to equity. This Plan would have a minimum the of 10% investment in equity related instruments which can be increased up to 80% depending on market fundamentals.

SBI ONE INDIA FUND

The scheme shall invest in diversified basket of equity stocks focusing on all four regions of India.

The approx. allocation of investments between the various regions in equity and equity related instruments would be as follows:

Regions	Minimum Allocation (as a % of Equity Assets)	Maximum Allocation (as a % of Equity Assets)
East	15%	55%
West	15%	55%
North	15%	55%
South	15%	55%

Key Information Memorandum

The allocation of equity assets to a region will be determined on the basis of various factors (including but not restricted to) the economic development of a region, market opportunities, changing regulation, flow of investment/capital to a region, demographic profile, other political and economic factors specific to a region etc. The allocation to each region will be reviewed periodically to see whether the equity allocation to a region is consistent with the relative attractiveness of that region.

Note:

- i) The Regional investment limitation will not be binding for investment in the asset classes other than equity and equity related instruments.
- ii) The minimum and maximum allocations are indicative in nature. The restrictions regarding the allocation will be applicable at the time of the investment.
- iii) Definition of Regions:

Companies of a region will be defined as those having their:

- Registered office; or
- Head Quarters; or
- Major manufacturing facility; or
- Major Revenue generating activity

In the region defined as a group of states and union territories

The regional grouping of all the states and Union Territories in the country would be as follows:

Region	States and Union Territories
North	Jammu & Kashmir, Himachal Pradesh, Punjab, Haryana, Uttar Pradesh, Rajasthan, Delhi, Uttaranchal, Chandigarh.
South	Andhra Pradesh, Karnataka, Kerala Tamil Nadu, Pondicherry,
West	Gujarat, Maharashtra, Goa, Madhya Pradesh, Daman & Diu, Dadra & Nagar Haveli, Lakshwadeep
East	Bihar, Orissa, West Bengal, Jharkhand, Assam, Chattisgarh, Meghalaya, Tripura, Mizoram, Manipur, Nagaland, Arunachal Pradesh, Sikkim, Andaman & Nicobar.

On the basis of the above definition, it is possible for a stock to form a part of two regions also by virtue of having the Head Office/Registered Office located in a Region and a major manufacturing facility/revenue generating activity located in another region. For example, the registered office of TATA Steel Limited is situated in Mumbai (Western Region), while currently its manufacturing facility is situated in Jamshedpur (Eastern Region). In view of the above, TATA Steel will qualify to be a part of both the Western Region and the Eastern Region.

The scheme aims to provide the investor to participate in the overall growth of the Indian Economy by allocation investments in the companies in various regions. The scheme aims to generate higher returns by investing a large part of the fund in the companies of a region which provides the potential for higher growth. However, to avoid the skewness to a particular region, the scheme would invest upto 55% of its equity assets in the companies of a specific region. The scheme will be actively managed and the scheme may rotate the weightage of exposure to various regions.

Under normal circumstances, the definition of a region as disclosed in this Scheme Information Document for identifying stock/shares of that particular region shall not undergo any change. However, any such change in future shall be justified and recorded in writing. Further, subject to SEBI Regulations, SBI Mutual Fund will also release equity portion of the scheme, based on the regions defined aforesaid.

SBI INFRASTRUCTURE FUND – SERIES I

The scheme will follow internal norms with respect to single sector exposures. The scheme will be positioned as a thematic “multi-sector” fund and not as a diversified equity fund. The scheme will invest in companies broadly within the following areas/sectors of the economy namely –
